### Scaling-Up of Evidence-Based Practices

- Scaling-up means that at least 60% of the students who could benefit from an innovation have access to that innovation in schools across the state.
- Readiness is defined as a developmental point at which a person, organization, or system has the capacity and willingness to change.

---

---

---

---

---

---

---

---

**WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

### Exploration Stage

- Creating "readiness for change" is an active component of the Exploration Stage.
- Which includes identifying the need for change, what it takes to implement the innovation effectively, developing stakeholders and champions, deciding to proceed (or not)

---

---

---

---

---

---

---

---

 **WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84<sup>TH</sup> CONFERENCE ON EXCEPTIONAL CHILDREN

## Exploration Continued

- Using a purveyor group that is skilled at helping educators explore the options.
- Teacher support and “buy in”, commitment, and innovation acceptance have a big impact on success and sustainability. (Denton, Vaughn, and Fletcher, 2003; Han & Weiss, 2005)

---

---

---

---

---

---

---

 **WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84<sup>TH</sup> CONFERENCE ON EXCEPTIONAL CHILDREN

## Exploration Continued

- Determine the needs of students, teaches, schools, and community.
- Degree to which evidence-based practices match need.
- Determine whether implementation is feasible.
- Create readiness for change

---

---

---

---

---

---

---

 **WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84<sup>TH</sup> CONFERENCE ON EXCEPTIONAL CHILDREN

## Installation Stage

- Establishing the resources needed to use an innovation and resources required to implement the innovation with fidelity resulting in good outcomes for children
- Installation is a very important part of the implementation process.

---

---

---

---

---

---

---

 **WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84<sup>TH</sup> CONFERENCE ON EXCEPTIONAL CHILDREN

## Initial Implementation Stage

- The first use of the innovation by educators and others working in a school and district.
- This stage is sometime referred to as the “awkward stage”.

---

---

---

---

---

---

---

 **WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84<sup>TH</sup> CONFERENCE ON EXCEPTIONAL CHILDREN

## Full Implementation

- The skillful use of an innovation well-integrated into the repertoire of educators and routinely supported by roles, functions, and structures supported by the building and district administration.
- However, this may take 2 – 5 years to achieve

---

---

---

---

---

---

---

 **WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** | 84<sup>TH</sup> CONFERENCE ON EXCEPTIONAL CHILDREN

## Implementation Drivers

- Behavior change is created and supported by core implementation components also called *implementation drivers*

## Rockingham County- State of North Carolina's North Star!

- 25 schools in Rockingham County
  - 16 PBIS (Implemented and Trained) schools  
(15 have received state recognition, one is beginning implementation this school year)
  - 9 non-pbis
  - 13, 000 students
  - EC Population: School Age- 1818, Preschool- 216
  - Rockingham County is designated as Tier 1
  - RCS is eligible for the Community Eligibility Provision for school lunch meals at no cost

Development  
Commitment and  
acquiring more  
information about  
the innovation

ROCKINGHAM  
COUNTY SCHOOLS

## RCS Exploration Phase

- Assessed capacity, resources, and buy-in
- Began developing awareness and support for adoption (parents, staff, central office)
- Explained the risks involved in adopting ("What will be different for us as a result?")
- Identified staff who will be comfortable managing the risks (change in practice, ambiguity) for leadership roles

ROCKINGHAM  
COUNTY SCHOOLS

## RCS Installation

- Assessed whether we would have access to experts (trainers, coaches, colleagues) who know the innovation well
- Build consensus and commitment for adoption

*"For the things we have to learn before we can do them,  
we learn by doing them."*

**Initial Implementation**  
Provide Significant  
Support to  
Implementers;  
Implementer is  
focused on short-  
term day to day use  
of the innovation  
with little time for  
reflection

ROCKINGHAM  
COUNTY SCHOOLS

## RCS Initial Implementation

- Created a "space" for the work to happen
- Began recruiting and hiring staff
  - PBIS Coordinator
- Began Conducting training

---

---

---

---

---

---

---

---

WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

**Full Implementation**  
Use of the innovation is stabilized. Few if any changes are being made in on-going use

## RCS Full Implementation

- Developed the infrastructures to support implementation
  - On-going training
  - Coaching and supervision
  - PBIS Coaches Meeting
  - Coaching and Consultation in between meetings
  - Monitoring
  - Implementation Inventory/SET Evaluations (Outcome Evaluations)
  - Implementing is a routine while implementing the innovation

WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

**Full Implementation**  
Use of the innovation is stabilized. Few if any changes are being made in on-going use

## RCS Full Implementation

- Replicate school implementations within the district based on initial implementation
  - Select a model demonstration site(s) and then learn from implementation efforts
  - Let early adopters make the mistakes first
  - Continue to refine systems that support how data are analyzed and how decisions are made
- Ensure feedback loops are in place between the implementation support systems
  - Building leadership team Implementation Planning Team
- All the components of the innovation are in place and fully functioning

## RCS Full Implementation

- Scaling Up and Engaging in Complex Problem Solving
  - Discipline Task Force
  - Disproportionality Problem Solving (District/Teams)
  - Exploration and Discussion of MTSS and scaling up

**WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS** 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

**Full Implementation**

Use of the innovation is stabilized. Few if any changes are being made in on-going use

**Full Implementation**

- Planning for Sustainability!
- It is important to first, do it right (fidelity), then do it better (innovate) (Kent McIntosh says....SUSTAIN HARDER!)
- Continuous Regeneration is doing it better
  - More efficient with implementation
- It is important to have feedback loops in place to review data to determine if alterations to the innovation are still positively impacting student outcomes
- Consultation with:
  - Experts, trainers, coaches, colleagues
- Systems adoption within the district
  - New staff orientation
  - Should get easier over time

 WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

### Stages of Implementation Applied at District Level

- Implementation is not an event
- A mission-oriented process involving multiple decisions, actions, and corrections

---

---

---

---

---

---

---

---

 WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

### Implementation Challenge

Selecting **effective, efficient, relevant, durable** evidence-based **solutions**

↓

Establishing **systems level infrastructure** to support scaled implementation of evidence-based solution

↓

Arranging for **accurate, sustained, & generalized** **local implementation** of evidence-based solution

(Slide from Sugai, 2010)

## Exploration/Adoption

- Is MTSS the right thing for us to do?
  - Identifying Need
  - Determining Fit
  - Examining Evidence
- Can we do it the right way?
  - Resource Availability
  - Assessing Readiness
  - Capacity to Implement

---

---

---

---

---

---

---

---

WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

**Exploration/Adoption**

Development Commitment and acquiring more information about the innovation

## Exploration/Adoption

- Central level administration can identify the critical features of the program (e.g., creating a district implementation plan, regularly scheduled meetings to review progress and adjust plan accordingly, provide for coaching/training)
- A district exploration team which includes cabinet level administrators investigates whether the district has the capacity to support implementation (funding, resources, time, skills)
- 100% of district staff responsible for overseeing educational program within district are committed to supporting and implementing the program

---

---

---

---

---

---

---

---

WORKING TOGETHER TO ACHIEVE STUDENT SUCCESS | 84TH CONFERENCE ON EXCEPTIONAL CHILDREN

**Installation**

Creating the systems and materials to prepare for implementation

## Installation

- Develop implementation team
- Conduct district capacity audit
- Develop district implementation plan
- Arrange for coaching and training
- Develop district data systems
- Make "room" for the initiative

---

---

---

---

---

---

---

---

**Installation**

Creating the systems and materials to prepare for implementation

## Installation/Implementation Team Activities

- Develop implementation support plan (for districts/schools)
- Help to "make room" for the practices through braiding of initiatives
- Coordinate and monitor implementation of plan
- Create implementation materials
- Collect and summarize data (share with executive problem solving team)
- Identify barriers to implementation (share with cabinet team)

### Making Room for the Initiative through Braiding MTSS with District Strategic Goals

Accountability

Diversity

Parent/Community Involvement

Student Achievement

MTSS (PBIS/RtI)

Healthy Youth Development

Safety & Discipline

Successful Student Outcomes

### Braiding means

Consider the core features of an initiative, what other current initiatives share these features and may be combined to

- Share resources
- Share activities (e.g., Professional Development)
- Share information (e.g., data collection)

## Lessons Learned from PBIS and MTSS

- Importance of Communication
- Data Needs and Access
- Administrative Changes
- Ownership
- Ongoing Training Needs
- Coaching Infrastructure
- Self Evaluation
- Visibility, Communication of Progress
- Planning for sustained implementation & expansion begins early & formally
- Continuous and sustained implementation is about efficacy, relevance, priority, & fidelity
